

Aschoff Solar Company News

January 2014

Ethics Bank

We are pleased to announce, that Aschoff Solar is now customer of the *Ethics Bank* (orig. EthikBank).

The *Ethics Bank* is an ethic and ecological direct bank. The difference to other ones is the commerce with its customers, that have to comply with strict criterias, such as the engagement against climate change, environment politics or performances in the field of environment.

Companies, dealing with not sustainable energies or gene-modified plants for example are not customers of the *Ethics Bank*.

This bank fits to our company's philosophy and we look forward to a long-standing cooperation.
