

Aschoff Solar Company News

February 2016

“renewables - Made in Germany”

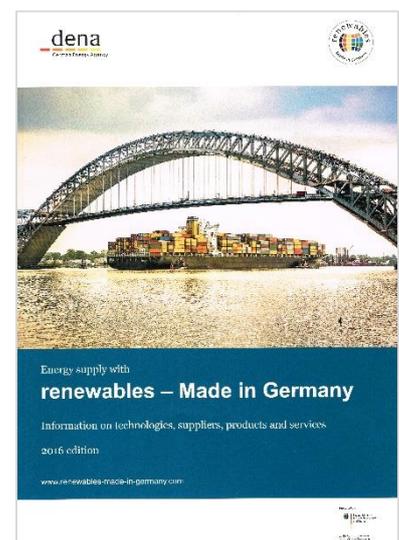

The German Energy Agency “DENA”, supported by the Federal Ministry for Economic Affairs and Energy, launched a new magazine edition for 2016.

You will find a company profile on pages 82/83, that describes the services and products, which are the Aschoff Solar Thermal, Power and Pump Systems.

The magazine will be distributed worldwide in different languages and can primary be found on exhibitions and specialized stores.
